Team: Rich Philip, Jenny Roehm, Robin Maslowski, Justin Chamberlain, Olivia Patterson

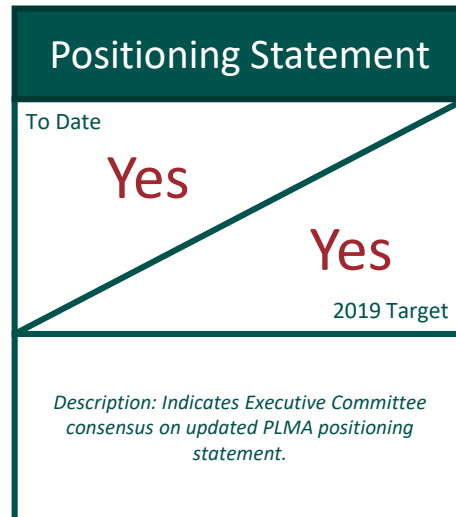

E

Optimize Positioning & Branding

“Realign the PLMA Mission Statement, Branding, and messaging to reflect changing energy industry landscape”

Team: Ray Pustinger, Ruth Kiselewich, Stuart Schare, Wendy Brummer

Setting the Stage for Strategic Vision 2021

Survey Results Summary – Current State

- Current members favorite existing membership benefits are the Conferences, Member Passes, Interest Groups and Publications
- All existing benefits rated as high or medium value for more than 50% of respondents.
- Differences between utility members and other industry members— Member Passes, Interest Groups and Publications all rated higher for utility members. Industry members scored training classes much higher than utilities in this year’s survey—a switch from 2017.
- Very few negative comments about existing benefits.

Survey Results Summary—Future Direction

- C-Suite Engagement – uneven interest across membership. Will need strong sponsorship and an eye toward leveraging other activities/initiatives in order to move forward.
- Policy Maker Engagement – Utility Members much more interested than others, but overall it is “luke-warm interest” with some risk of alienating existing members who are active in that area. Needs discussion.
- Exploring innovation in future business models does have interest across membership.

Survey Results Summary—Top Issues

- DER Integration
 - How to provide more value, following industry changes, role of DR, etc.
- PLMA Organizational Issues
 - Thought Leadership ideas/direction
 - Financial Plan
 - Interest Group management/planning/lifecycle management
 - How much can we expect from volunteers? (Strategic versus operational)
 - Succession Planning, Term Limits, and overall structure
- Conferences
 - How to improve (can we leverage material for more things, additional session approaches)
 - Engage Members to participate more during the sessions
- Where do Policy issues fit?
- C-Suite Engagement
- Training Improvements

Survey Results Summary – Utilities vs. “Industry” perspective

47 Valid Responses (as opposed to 68 in 2017)

	Utilities	“Industry”
Respondents	20	26
#1 Member Benefit	Conferences	Conferences
#2 Member Benefit	Passes for Conferences & Training	Passes for Conferences & Training
#3 Member Benefit	Publications	Interest Groups
Also Scoring Highly (above 50% “High Value”)	Interest Groups, Webinars & Podcasts	

Strategic Vision 2021

Lessons Learned

- Strong ask for volunteers to manage the logistics of regular team meetings to refine and track plan documents and metrics;
- Metrics allow demonstration of concrete progress against stated goals; however, some of the metrics deemed controversial (e.g. “New DER Memberships”)
- Strategic metrics discussion highlighted the need to also define operational and foundational metrics:
 - Performance metrics dashboard: <https://docs.google.com/spreadsheets/d/1pa9shRGSg4V00-ytwQHBbEpMCmBH2WrzLat-zOVTN7M/edit?usp=sharing>
- Some of the metrics evolved and were refined (e.g. videos)

A

Spark DER Innovation

“Stimulate DER advancement by providing a process/platform for identifying industry needs an accelerating innovation”

Team Lead: Robin Maslowski with Rich Barone, Michael Brown, Olivia Patterson, Christine Riker, Ruth Kiselewich, volunteer at signup@peakload.org

- Create a structured process to identify, prioritize, and disseminate DER innovation gaps/needs/topics/challenges that could be addressed by PLMA activities/initiatives
- Establish and maintain a common, objective hub for identifying, prioritizing, and fostering adoption of leading-edge solutions that address “greatest DER challenges” in innovative, replicable/practical ways
- Enhance PLMA operational practices to drive activities/initiatives that address key themes/needs/priorities as identified by membership

Tasks with Deliverables

Metric	By Dec. 2020	By Dec. 2021

“Pave the DER path by promoting forward-leaning solutions, market models, organizational change management, and operational experiences”

Team Lead: Rich Barone with Robin Maslowski, Michael Brown, Olivia Patterson, Christine Riker, Ruth Kiselewich, volunteer at signup@peakload.org

- Illustrate DER adoption – most notably PV, storage and Evs, as a key means of expanding the scope and value of the Demand Response toolkit.
- Reflect utility, market and customer perspectives on DER adoption based on real world examples
- Emphasize both the successes AND failures to simultaneously illuminate “how to’s” while sharing key lessons learned industry challenges
